Why migrate to Wordpress ?

- Increase interactivity ← *Comments*
- Encourage feedbacks ← *Subscribe*
- Allow multiple but controlled authors/Scribes
← *Every table can post*
- Search history
← *Posts are categorized and tagged*
- Keep high security
- Decentralize responsibilities
← *From « Web Master » to Scribes*
- Does not « oblige » to subscribe as for **FB**
- Contingency planning and business continuity
← *Funcapacitated « Web Master »*

Why WordPress?

People often make the mistake of classifying WordPress as just a blogging platform. Although that used to be true in the past, WordPress has evolved through out the years into a versatile [content management system \(CMS\)](#). While you can still use WordPress to create a simple blog, now it also allows you to create fully functional websites and mobile applications.

The best part about WordPress is that it's easy to use and flexible enough for just about anything. That's the main reason why WordPress has grown so much in popularity. According to a [recent survey](#), WordPress powers 22.5% of all websites on the internet.

Login : The Dashboard

Logged as NY =« Rascal »

The screenshot shows the WordPress admin dashboard for the site 'Brotherhood of the Coast - USA'. The user is logged in as 'NY =« Rascal »'. The dashboard includes a sidebar with navigation options like Dashboard, Jetpack, Posts, Events, Media, Links, Pages, File List Pro, Comments (4), Feedback, Users, Tools, Settings, Gallery, and Collapse menu. The main content area features several widgets: 'At a Glance' showing 29 Posts, 34 Pages, 42 Comments, and 4 in moderation; 'Quick Draft' for creating new posts; 'Activity' showing recent posts and comments; 'Recent Comments' with a pending comment from Mark Link; and 'WordPress News' regarding a security release for version 4.5.2. A yellow callout bubble points to the 'At a Glance' widget with the text 'Statistics, News, WP Info...'. A green callout bubble points to the user name in the top right corner with the text 'Logged as NY =« Rascal »'.

The dashboard / How to start a post

The image shows a screenshot of the WordPress dashboard for the website 'Brotherhood of the Coast - USA'. The dashboard is viewed through a web browser with the URL 'www.bocus.org/wp/wp-admin/index.php'. The left sidebar contains a menu with items: Dashboard, Jetpack, Posts, Events, Media, Links, Pages, File List Pro, Comments (4), Feedback, Users, Tools, Settings, Gallery, and Collapse menu. The main content area is titled 'Dashboard' and includes several widgets: 'At a Glance' (showing 29 Posts and 42 Comments), 'Quick Draft' (with a 'Save Draft' button), 'Drafts' (listing several drafts), and 'WordPress News' (mentioning a security release for WordPress 4.5.2). Three red callout boxes with yellow text provide instructions: one points to the 'New' button in the top navigation bar with the text 'Quick Draft Quick and dirty'; another points to the 'Posts' and 'Pages' menu items with the text 'The better way to start writing as post.'; and a third points to the 'Posts' and 'Pages' menu items with the text 'List Posts and Pages, Edit, New, Delete, Publish...'. The browser's address bar and various icons are visible at the top of the page.

The dashboard / Start a post

The screenshot shows the WordPress dashboard interface for a user named 'Howdy, Rascal'. The main content area is titled 'Add New Post'. The title field contains the text 'Updated HELP page', which is highlighted by a red callout bubble with the text 'Give a title and topic'. Below the title field, the permalink is shown as 'http://www.bocus.org/updated-help-page/'. The editor includes a toolbar with various formatting options and a text area containing the following text: 'The HELP page is available in the menu. This is a pretty static page. But the "announcement" here created is basically a post. Be sure to visit this page as Big Hopper will give a brief presentation about the web site at the [Tybee Zaf.](#)' The right sidebar contains the 'Publish' section with options for 'Save Draft', 'Preview', 'Status: Draft', 'Visibility: Public', and 'Publish immediately'. The 'Format' section is set to 'Gallery'. The 'Author' dropdown is set to 'Rascal (NY)'. The bottom of the screen shows 'Likes and Shares' and 'Tags' sections.

The dashboard / Start a post

The screenshot shows the WordPress 'Add New Post' interface. The title field contains 'Updated HELP page'. The main content area has the text: 'The HELP page is available in the menu. This is a pretty static page. But the "announcement" here created is basically a post. Be sure to visit this page as Big Hopper with [Tybee Zaf.](#)' The right sidebar shows the 'Publish' section with 'Status: Draft' and a 'Publish' button. The 'Format' section has 'Gallery' selected. Two red callouts are present: one pointing to the title field and another pointing to the 'Draft Edit' link in the publish section.

Give a title and topic

Type your text and if satisfied, amend the status from EDIT to PUBLISHED

Sprucing a Post: Insert a Media / Picture

The image shows a screenshot of a WordPress 'Edit Post' interface. The page title is 'Updated HELP page'. The main content area contains the text: 'The HELP page is available in the menu. This is a pretty static page. But the "announcement" here created is basically a post. Be sure to visit this page as Big Hopper will give a brief presentation about the web site at the Tybee Zaf.'

An orange callout bubble with the text 'Add a media' is positioned over the 'Add Media' button in the top toolbar. An orange arrow points from the bubble to the button. The 'Add Media' button is located in the top toolbar, next to the 'Add Contact Form' button. The toolbar also includes buttons for 'Visual' and 'Text' modes, and a 'Paragraph' dropdown menu.

The right sidebar contains the following options:

- Status: Draft [Edit](#)
- Visibility: Public [Edit](#)
- Publish immediately [Edit](#)
- Publicize: Not Connected [Show](#)
- [Publish](#)

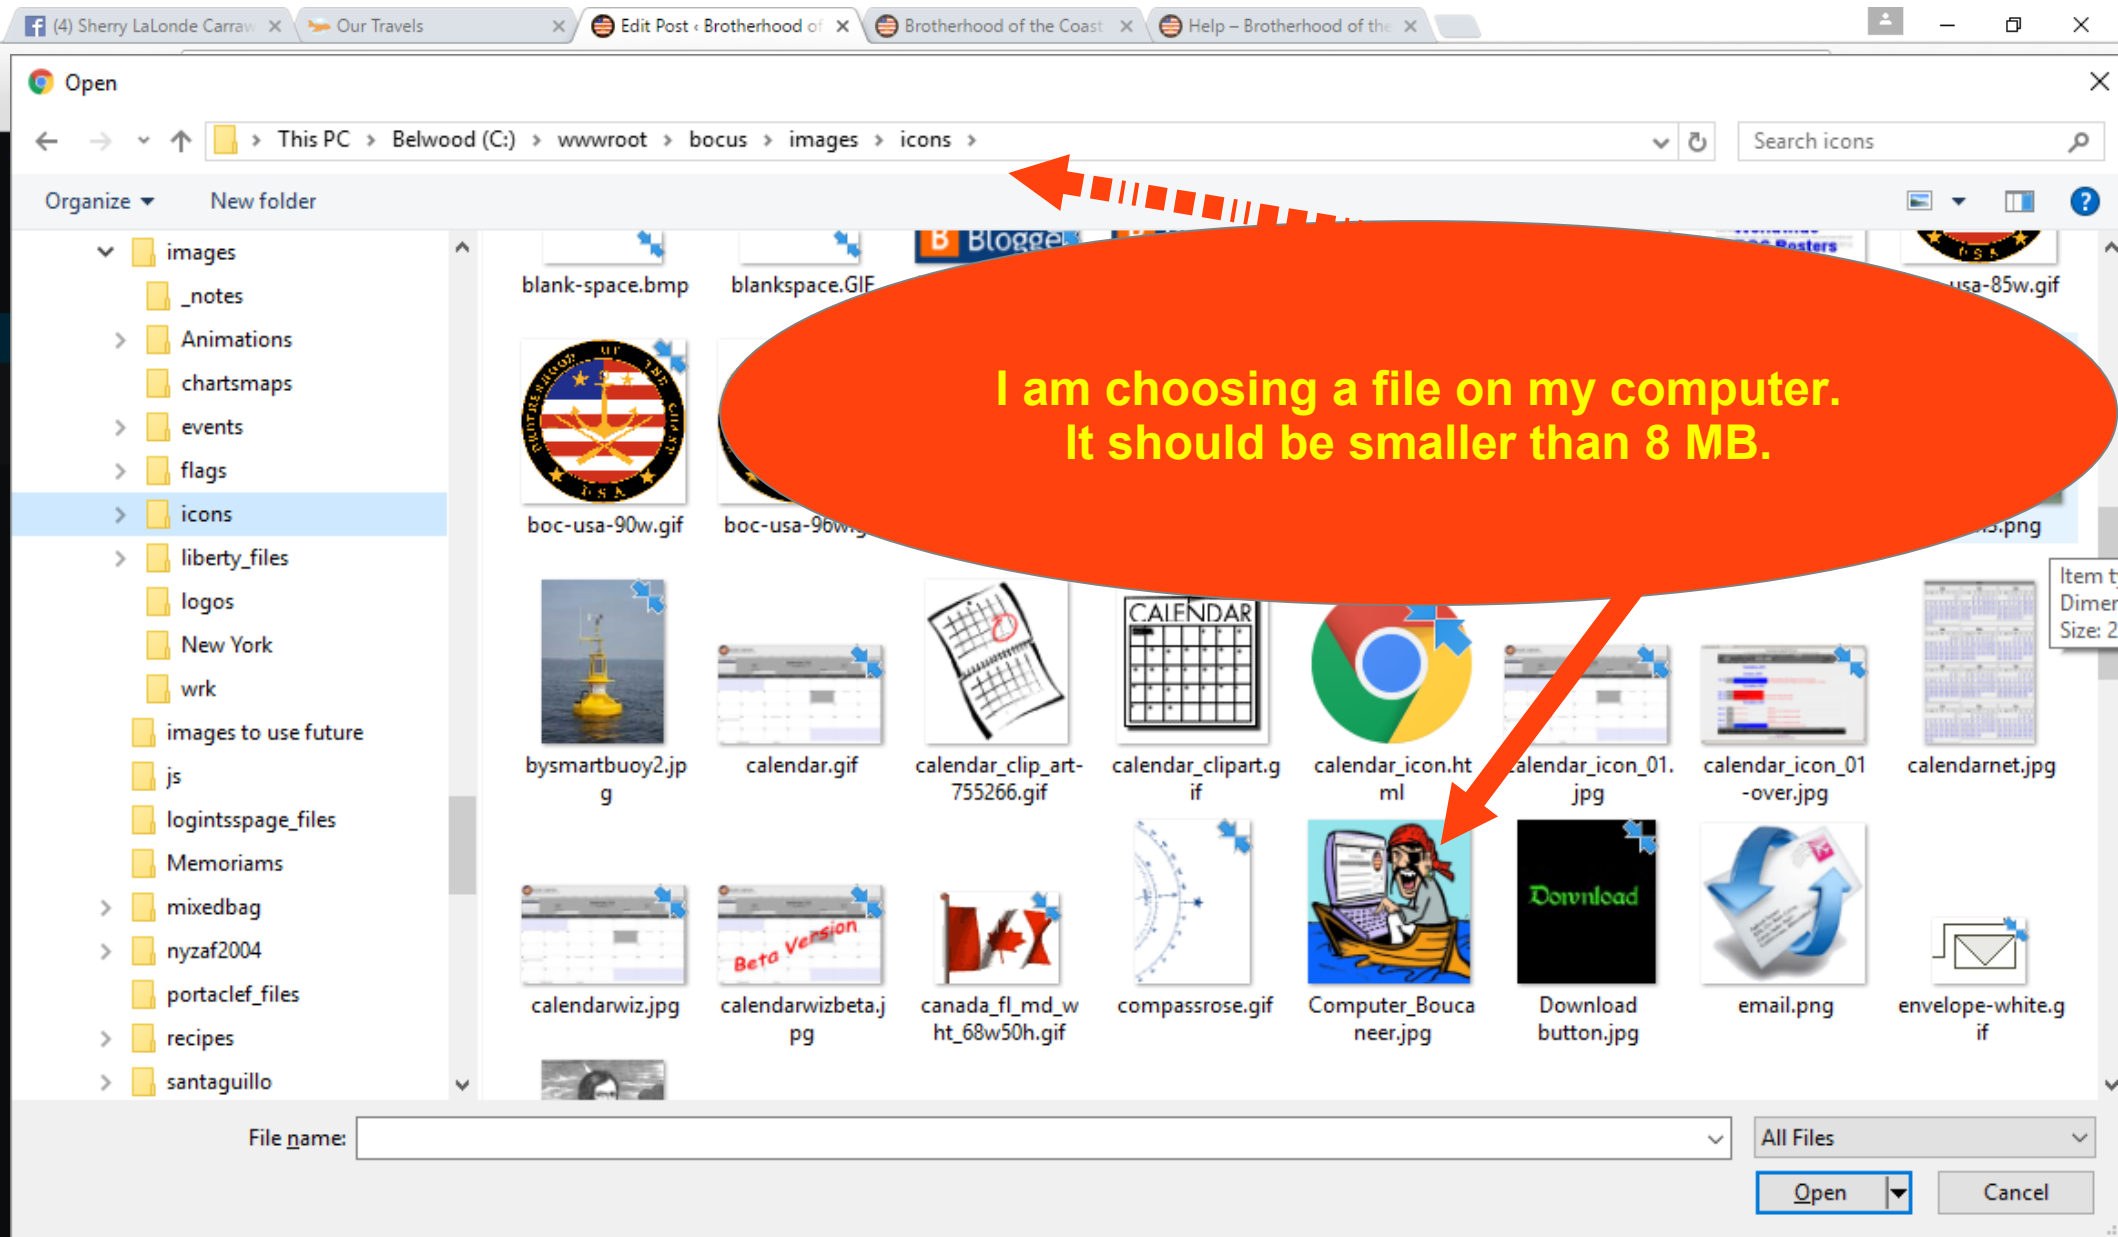

The bottom of the page shows the 'Author' dropdown menu set to 'Rascal (NY)'. The word count is 45, and the post was last edited by Rascal on August 2, 2016 at 1:48 pm.

Sprucing a Post: Insert a Media / Picture

The screenshot shows the WordPress 'Insert Media' interface. On the left, there is a sidebar with options: 'Insert Media', 'Create Gallery', 'Create Video Playlist', 'Featured Image', and 'Insert from URL'. The main area has two tabs: 'Upload Files' and 'Media Library'. The 'Media Library' tab is active, showing a grid of media items. A red callout bubble is overlaid on the right side of the interface, containing text in yellow. Two red arrows point from the callout bubble to the 'Media Library' tab and a specific media item in the grid.

Media , pictures, movies, soundtracks and any other file such as *.doc, *.pdf... are stored in the LIBRARY. You can choose an existing file or upload a new one from your own device. This is the usual situation

Insert a Media / Picture

I am choosing a file on my computer.
It should be smaller than 8 MB.

Insert a Media in a Post

Insert link to a Page or Document

The screenshot shows the WordPress admin interface for editing a post. The browser address bar shows the URL: www.bocus.org/wp-admin/post.php?post=11813&action=edit. The post title is "Edit Post - Brotherhood of the Coast". The post content includes a paragraph about the HELP page and a link to "Tybee Zaf's Captains meeting". Below the paragraph is an image of a person wearing a red hat and a laptop. The text "Actively involved in blogging" is written below the image. The post content continues with "This post was concurrently created with the Help page itself. There is a PowerPoint presentation "[bocus-intro](#)" we have uploaded and linked to."

To link to a page, click on chain link icon: A list of pages will pop up.

To link to a document, such as a doc or a PDF, like any other media loaded in the library, use the « ADD MEDIA » button. (Another HELP page will show how to add FIRST WATCH and TORTUGA POSTS)
